

Ferdi Licher

**Director
Building and Energy
Department**

**Energy-efficient and
Sustainable built environment**

How do we get there?!

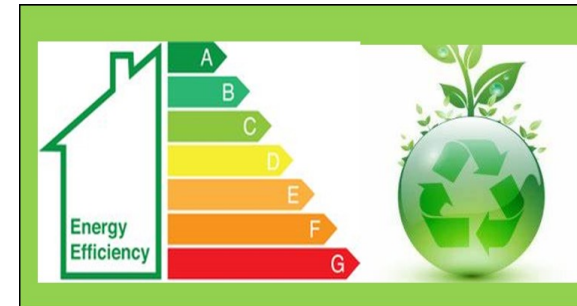

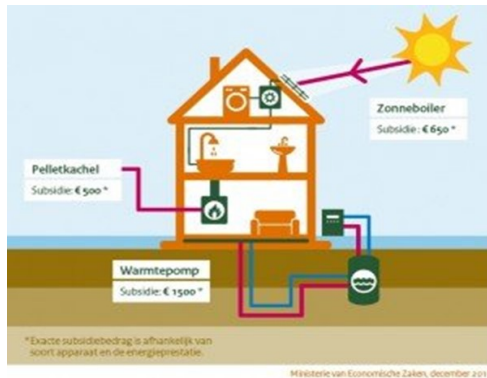

**NL Ministry of the Interior and
Kingdom Relations**

20 November 2020

1. Introducing Pricing

2. Setting performance

5. Stimulating innovation

4. Upscaling renovations

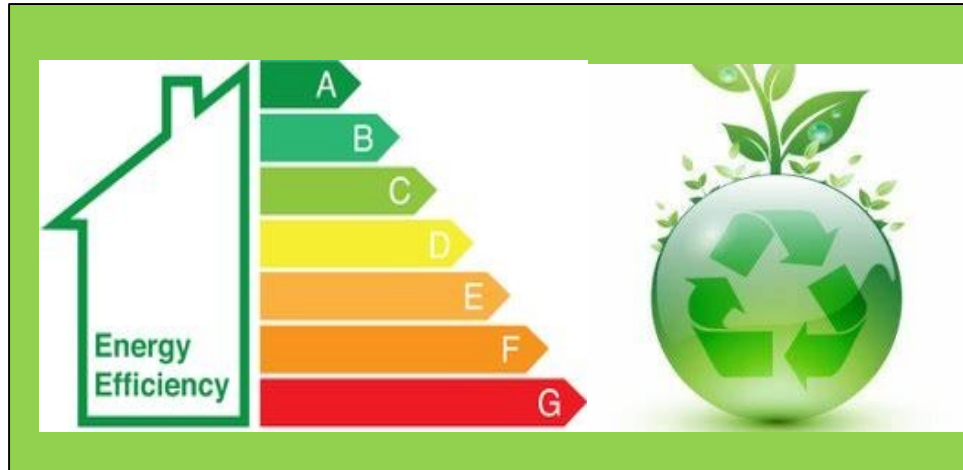

3. Making affordable

1. Pricing fossil energy and raw materials:

- **Energy tax**
- **ETS for built environment**
- **Waste tax**
- **etc..**

2. Determining the environmental and energy performance of buildings:

- **BENG / MPG**
- **WMB**
- **EED / LTA**
- **Requirements for heating systems ...phasing out.**

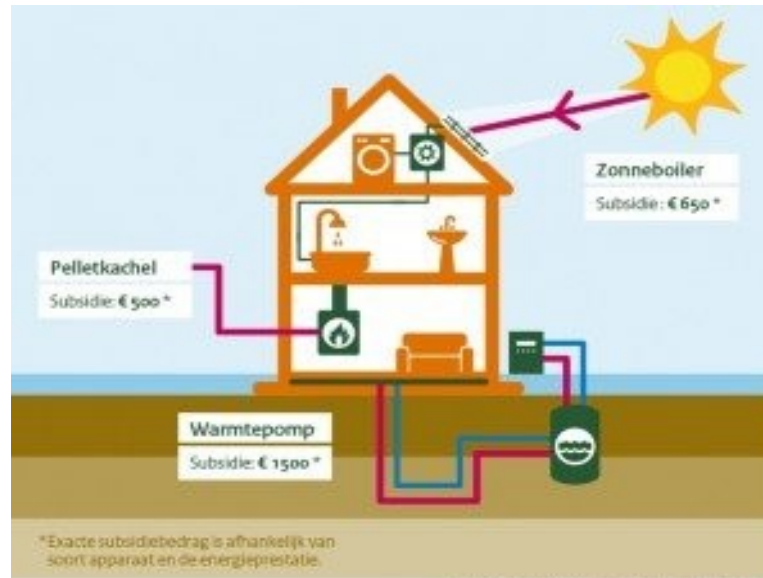

3. Making sustainability and energy-saving measures affordable for homeowners:

- **Heat fund**
- **Grants ISDE and ZON PV**
- **Broader mortgage loan options**

4. Upscaling of home renovations through neighborhood approach and housing corporations:

- **Renovation accelerator**
- **Natural gas-free neighborhoods testing grounds**
- **Heat transition visions**
- **RVV subsidies for 3 label steps**

Ministerie van Economische Zaken, december 2015

5. Stimulating construction design and technology innovation:

- **Means of innovation MOOI / DEI**
- **Public services tender (MVI / Emission-free)**
- **BTIC Cooperation TNO / TU**
- **Etc...**
